

SHIFA FOUNDATION
making an effort

PROFILE

Health, Humanitarian & Community Impact in Pakistan

Who We are?

Shifa Foundation, established in 1991, delivers integrated services in health, nutrition, WASH, protection, food security, and mental health to vulnerable and disaster-affected communities across Pakistan. The organization has implemented large-scale maternal and child nutrition programs, strengthened malnutrition management systems, improved safe water and sanitation access, and safeguarded women and children through protection services.

It has also supported livelihoods, built community resilience, provided emergency relief during floods and droughts, and introduced community-based psychosocial support. Over three decades, Shifa Foundation has reached millions nationwide, promoting dignity, equity, and sustainable community resilience.

35 YEARS OF TRANSFORMING LIVES TO BUILD A BETTER FUTURE

OUR VISION

To shape the future of the underprivileged communities by promoting health and development.

OUR MISSION

To become the role model in the world of charity services by offering highly transparent, efficient, and valuable modes of support financially, in kind, and other services to the underprivileged members in the society without any discrimination, and while preserving their human dignity and self-respect.

OUR VALUES

We uphold compassion, integrity, and accountability in every action we take. Our commitment is to serve with dignity, transparency, and a relentless focus on empowering communities

- Quality and Excellence
- Dignity and Self-Respect
- Collective Responsibility
- Transparency (Amanah) & Accountability

Our Areas of Impacts

We create lasting change through healthcare, clean water, sanitation, environment action, disaster relief, and volunteer engagement.
